STERLING EVERGREENS

In this booklet we offer only the better tried and proved sorts of Evergreens, American and Foreign. They are indispensable everywhere in forming the framework of good planting on account of their beauty, hardiness and vigor.

BOXWOOD

On our grounds is an immense rounded cushion of a Boxwood, the parent and grandparent of all our Buxus sempervirens. The popularity of Boxwood increases as the years go by and to plant it is like investing in good bonds. Ours is the true Buxus sempervirens, always deep green and glossy in any decent soil, developed into symmetrical bush shape and dense quite to the ground. We grow it from short cuttings which branch thickly from the soil making cushiony masses of deep green, often as broad as tall. They are infinitely superior to the tall, thin bushes developed quickly from scrawny cuttage and quick forcing. It takes longer to grow such dense bushes, but they are far more effective, and their heavy root masses make transplanting easy and successful.

12 inch	\$1.25	$2\frac{1}{2}$ fee	et\$3.00
			4.00
2 feet	2.50	4 feet	6.00

Buxus suffruticosa. Dwarf or Border Box, so well known as an edging to the beds of gardens at Mt. Vernon and other old Colonial homes. The leaves are slightly smaller and softer than those of the taller sorts and the growth much slower. 6 to 7 inch, 50c; 7 to 8 inch, \$1.00.

ILEX OPACA

The American Holly, Christmas Holly, has larger, broader-leaves less crimped by their spiny margin than those of the English species, and a more plentiful clustering of brilliant orange-scarlet berries. The Arnold Arboretum gives this Holly high praise as being the only broad-leaved evergreen tree hardy in New England. Defoliate and prune. Fine bushy

little trees, 1 ft. 50c; $1\frac{1}{2}$ ft. 75c; $1\frac{1}{2}$ to 2 ft. \$1.50; 2 to 3 ft. \$2.50; $3\frac{1}{2}$ to 4 ft. \$4.00; 5 ft. \$5.00; 6 to 7 ft. \$7.00.

LEUCOTHOE CATESBAEI

The Drooping Andromeda is the most graceful of broadleaved Evergreen shrubs. Its arching, red-brown stems carry large, shining, pointed leaves set with fern-like regularity, underneath which in early spring cluster thickly short nodding sprays of cream-white flowers, shaped like valley-lilies. 1 ft. 50c; 1 to $1\frac{1}{2}$ ft. 75c; $1\frac{1}{2}$ to 2 ft. \$1.00; 2 to 3 ft. \$1.50.

EVERGREEN AZALEAS

The Japanese Evergreen Azaleas literally cover their leaves in early spring with a mass of brilliant flowers. We are testing a number of sorts with the hope of finding them hardy.

A. amound: Dwarf and bushy, with small leaves like the box, bronzing in winter. Very hardy. The clusters of lavender flowers cover the bush here in early April. \$1.00.

- A. Hinedogiri. Leaves larger than Amoena's, bronzing beautifully. Flowers fiery scarlet, larger than Amoena's. Our most vivid early shrub. Both sorts are vigorous and easy to grow. Small plants. \$1.00.
- A. Hinemayo. Leaves longer and lighter green than in the other two; quicker growing; flowers a bright, fresh pink, in pretty clusters. \$1.00.

Kalmia.

KALMIA LATIFOLIA

Showiest of all our American evergreens and often called the most beautiful. Its glorious

the most beautiful. Its glorious masses of pink and white bloom almost hide the shining foliage in May and June. The curious, dainty formation of the florets is most interesting. Clumps 1 ft. 50c; 1½ to 2 ft., \$1.00; 2½ to 3 ft. \$2.50. Broad-leaf Collection. 1 each of Kalmia, Rhodo maximum, Holly, Lencothoe, bushy, 1 ft. clumps, by express, \$2.25.

RHODODENDRONS

We formerly offered four species of American Rhododendrons, but find that R. Catawbiense and R. Carolinianum do not seem to take kindly to general cultivation, lacking the qualities of vigor and general adaptability to such varying conditions as our continent presents. Their colors also fail to harmonize in grouping as do those of the two sterling sorts below. They need the flaky black leafmold and the cloudmoist atmosphere of their native altitudes to keep them at their best. Customers complain continually of inability to keep them from languishing into sickly, straggly specimens.

R. maximum. Great American Rosebay. This thrives at a much lower altitude than other American species growing to great height among our foothills and seems to succeed wherever intelligent location and care is given it. In its

Asheville, N. C.

The plants reached us in good shape. My orders have been very satisfactorily filled and we thank you for the care given them.

C. A. HAMMOND-KNOWLTON.

My success with your plants and shrubs has given me confidence in your advice and stock.

Brattleboro, Vt.

Brattleboro, Vt.

L. H. RUGE.

Rhododendron maximum.

own tribe it is the tallest, the largest-leaved, the latest flowering, extending the Rhododendron season even to Independence Day. Quicker-growing than most Rhodos., it forms a superb background and shelter for tenderer sorts and its large cones of white or soft pink bloom help to harmonize their more intense colors. 8 to 12 inch 50c; 12 to 18 inch 75c; 18 to 24 inch \$1.00. Clumps in the above sizes \$1.00, \$1.50 and \$2.50.

R. Carolinianum Album. Recently discovered here by us, and named Margaretta by the Arnold Arboretum. Early in May it is covered with a mantle of almost white, fleecy, Azalea-like flowers. In the throat of the flowers are flashes of bright yellow and pink. Bushy plants, 1 ft. \$1.00; 1 to 2 ft. \$1.50.

SIX STERLING BROAD-LEAVES

Abelia grandiflora. Bush Arbutus. Bears clusters of dainty, arbutus-like flowers all summer. Grows rapidly; pinch tips of young growth to make bushes shapely. A favorite for hedge and foundation planting. 2 to 3 ft. \$1.00 each; 18 to 24 in. 80c; 12 to 18 in. 50c.

Euonymus Japonica. Broad, glossy leaves of darkest green; orange-capsuled scarlet berries are borne profusely as the bush ages. Grows much faster than boxwood and is almost as hardy. A fine specimen, hedge or foundation shrub, reaching 12 to 15 feet in height. 4 ft. \$2.50; 3 ft. \$1.50; 1½ to 2 ft. \$1.00; 15 to 18 in. 50c. All fine bushy stock.

Jasminum nudiflorum. Winter-flowering Jasmine. Evergreen in mild climates. Vine-like in habit, with drooping dark green stems blooming in graceful wreaths of yellow flowers through any mild thaw of winter. 1 ft. 25c.

Magnolia grandiflora. Queen of Evergreen trees, with leaves almost as large and lively in color as those of the rubber plant. The winter effect is especially rich and sparkling.

Seven Oaks, Dingletown Road, Greenwich, Conn.
The quality of the plants just received from you and their careful packing were a surprise—a most pleasant one. The Boxwoods are already in place and as I write this I am enjoying them.

In summer open its great creamy flower bowls to be followed by large crimson and scarlet seed-cones. Hardy as far north as Long Island, though it needs some protection until the young trees are established. $1\frac{1}{2}$ ft. 100 ; 2 ft. 1.75 ; 3 to 4 ft. 2.50

Pieris floribunda. This classic little beauty is charming all the year because of the flower-like effect of its showy win-The leaves are dark and rich, displaying the dainty white flower sprays to perfection. Give shade, moist soil and the same treatment as other Heath-like plants. 6 to 12 in. bushy plants, \$1.50.

Pyracantha coccinnea. Evergreen Thorn, Firethorn. Can be pruned back into shapely bushes covered in autumn with large clusters of orange-scarlet berries. Makes a good defensive and ornamental hedge. Grows in any soil, even hard red clay. Small plants, 50c; 1 to 1½ ft. 75c.

Sterling Collection. 1 each of Abelia, Euonymus, Jasminum and Pieris for \$2.50.

STERLING CONIFERS

Arborvitae, American. Thuya occidentalis. Becomes a dense, broad pyramid of deepest green in summer, bronzing somewhat in winter. Always handsome and hardy but varies in height according to soil and situation.

A tall tree in Canada. 2 to 3 ft. \$1.50; 3 to 4 ft. \$3.00; 4 to 5 ft. \$4.00.

Juniperus, Virginiana. Red. Quick growth, rich, varying tints and adaptability to many soils make this perhaps our most useful Conifer. Our stock has been sheared and transplanted several times. 1 to 2 ft. 50c.

Fir, Douglas'. Abies Douglasi. A stalwart pyramid of very clear dark green, silvering at the tips of the branches. Remarkably deep, close and massive in structure, retaining its heavy plumed branches quite close to the ground. It has great adaptability to varying conditions of sun, soil and climate. 1½ ft. \$1.50; 2 to 3 ft. \$2.00.

This and Fir, White. Abies concolor. the Douglas Fir are two of the handsomest trees native to the Rockies. Its plumelets are broad and silvery so that the tree is always conspicuous; branches broad and very graceful; in form one of the shapeliest of all Evergreens. On account of its brilliant tone and finished outline one of the best trees for foreground. ft. \$2.00; 2 to 3 ft. \$2.50.

Fir, Fraser's. .. Abies Fraseri. This and the Balsam Fir are the two trees that give our high mountains their healthful resinous odor. Fraser's Fir has broader-plumed whorls than the

der-surface, grows faster, holds its shape and lower branches longer. 1½ ft. \$1.00.

Hemlock, Canadian. Tsuga Canadensis. Our stately pyramidal native, inimitable for grace and beauty in all the many uses found for it. Our stock is especially bushy and graceful. 3½ to 4 ft. \$5.00; 2½ to 3 ft. \$2.25; 2 to 2½ ft. \$1.50; 1 to 1½ ft. 75c.

Hemlock, Carolina. Tsuga Caroliniana. A distinct species of unusual beauty and grace native of these mountains. The leaflets and spray are thicker, branchlets more pendulous, cones longer and tree dwarfer, retaining its lower branches better than the Canadian species. 1 to 1½ ft. \$1.50; 2 ft. \$2.50.

Juniper, Irish. C. Hibernica. Very straight and slender. Invaluable for grouping. A green exclamation point. 12 to 18 in. \$1.25.

Pine, White or Weymouth. Pinus strobus. Handsomest of the species, quick-growing, a true long-needled singing Pine, with tints of deep green, silver and steel-blue. Very straight and symmetrical with branches set in plumy whorls. A notable forest tree. 1½ ft. 50c; 2½ ft. \$1.00; 3 ft. \$1.25; 4 ft. \$1.50; 5 to 6 ft. \$2.50.

Norway Spruce. Picea excelsa. This quick-growing old Confer, so long a favorite for tall hedges, shelter belts and specimens has lately caught the public fancy for "Living Christmas Trees." 1 ft. 50c; 2 ft. \$1.00; 3 to 4 ft. \$1.50.

Colorado Spruce. Picea pungeus. In any batch of seedlings from this famous Conifer, the silvery blue tint varies. Seedlings are more symmetrical than grafted trees. 12 to 18 in. \$1.50; selected "blues," \$3.00.

Conifer Collections: One each of Col. Spruce, White Fir, Douglas Fir, Carolina Hemlock for \$5.00, by express, your expense.

One each Red Cedar, White Pine, Canadian Hemlock, Fraser's Fir, Norway Spruce for \$3.00 by express, your expense.

Canadian Hemlock.

CAROLINA AZALEAS

These give great gayety of color to our mountains in Spring and early Summer. They are hardy even in New England and not difficult to grow if given conditions similar to those recommended for Rhododendrons. Frequently they are classed as deciduous Rhodos, and rank next to the evergreen species in beauty.

Flame Azalea. A. lutea. A hillside covered with this Azalea in full bloom may have all the glorious colors of the sunset-orange, lemon, pure gold, orangle-red and even crimson. 12 to 18 in., bushy, \$1.50.

Pinxter Azalea. A. nudiflora. Also locally known as Wild Honeysuckle. The bright rosy pink flowers appear in early Spring before the leaves and crown every twig, making the shrub very showy. 15 to 18 in. \$1.00; 18 to 24 in. \$1.50.

Vasey's Azalea. A. Vaseyi. First of all Azaleas to bloom, before the leaves have appeared. The flower clusters are most refined and dainty, both in satiny texture of petal and pure, clear tone of pink. The leaves are brilliant in 12 to 18 in. \$1.50.

Swamp Azalea. A. viscosa. A low-growing species, with clusters of sweet, white flowers, showing pink stamens. Blooms later than the others, after the leaves have come. Abounds in moist places, but also thrives on dry hillsides. 12 to 18 in. \$1.00; 1½ to 2 ft. \$1.25.

Azalea Collection. One each of the Azaleas above and one Evergreen Azalea for \$5.00.

FLOWERING TREES

We keep on hand small stocks of the more sturdy and beautiful flowering trees, although the growing of Evergreens is our chief interest. Price, except where noted, 2 ft. 40c; 3 to 4 ft. 60c; 5 to 6 ft. \$1.50; 6 to 8 ft. \$2.00; 8 to 10 and 12 ft. \$3.00. Trees marked with a star we can supply in 15 to 20 ft. sizes, with corresponding caliper. Write for prices.

Japanese Weeping Cherry. Prunus subhirtella. The Shidare Higan of Japanese. Our little trees are of pyramidal form and will produce a mass of exquisite single pink flowers before the leaves on slender branches that sway and drift in rosy clouds of bloom with the winds of early April. 3 to 4 ft. \$3.50.

the Dogwood. Cornus Florida rubra. A very vivid and cheery tree in early spring when its horizontal waves of salmon-pink flowers open wide and clear. As effective as the costlier magnolias so often killed by frost. As sturdy and heady as the well-known white variety. Will always Pink Dogwood. and hardy as the well-known white variety. Will always be rare because it is hard to propagate. 1½ ft. \$2.50 to \$3.00.

Crabapple, Double Pink-flowering. Malus spectabilis. Flowers like small, double roses appearing early in spring. 3 to 4 ft. 75c.

Crabapple, American, Malus coronaria. 50c. Crepe Myrtle, Pink. 75c. *Dogwood, White. Horsechestnut, Aesculus. Locust, Black, Robinia. Maple, Red.

Mimosa, Acacia. *Redbud, Cercis.

Shadbush, Amelanchier. *Silverbell, Halesia. *Tulip Tree, Liriodendron. *Valley-Lily Tree, Oxydendrum. *Sweet Gum, Liquidamber.

*Beech, American. *Elm, American. Willow Oak.

Descriptions of above trees will be found in our booklet, "American Plants," a copy of which will be sent on request. Sweet Gum, Elm, Beech and Oak are not showy flowering trees, but their beauty of structure and leaf gives them high rank.

Bloom Collection. Any six of the 40c sizes above for \$2.00.

EVERGREEN COVER PLANTS

Price, except where noted, 15c each, by mail, 20c; \$1.50 per 12.

Trailing Arbutus. Daintiest of all evergreens. Fragrant flower-clusters of pink and white. Plant in the Rhododendron bed and mulch with leaves until established. We grow or collect all these plants on our own property. Good mats, 25c.

Creeping Euonymus. C. radicans. Makes a good ground-cover or climbs high as trained. Has very dark narrow leaves and with age, red berries.

Creeping Jenny. Lysimachia. Long trailers of rounded opposite leaves, growing fast and densely.

Evergreen Ferns. Christmas Fern, Ebony Spleenwort, Evergreen Wood Fern, Polypody, etc.

English Ivy. Hedera helix. This famous, handsome old vine. Climbs or creeps. 25c.

Galax aphylla. Grow your own winter decorations. Plant a bed of Galax under your Rhododendrons and gather the leaves for vases.

Hepatica acutiloba. Odd, mottled leaves and star-shaped flowers, of white, pink, or blue, opening during any mild winter thaw. 20c.

Iris cristata. This, the Dwarf Crested Iris, and the next grow in low dense tufts. Cristata has flowers of lighter blue than those of I. verna, less fragrance and no dash of gold to enliven it, but seems to nestle down contentedly in almost any reasonably good shaded soil, carpeting it thickly with tufts of grass-like leaves, above which rise sheets of sky-blue flowers in April. 20c.

I. verna. Dwarf Iris. Leaves narrower, flowers darker blue, charmingly touched with gold; has the odor of violets. Evergreen in dry, woodland haunts, or will grow in full sun, forming wide mats in a short time. 20c.

Mitchella repens. The slender stems of the Partridge Berry form a close network of small, dark twin leaves over rocks and moss in damp, shaded places. Scarlet, edible berries. Much used in glass bowls.

Nepeta glechoma. Ground Ivy. Quaint, shell-shaped, fragrant leaves and tiny, deep blue flowers.

Phlox subulata. Creeping Phlox. White and Pink. Carpets the ground closely and bursts into sunny sheets of bloom early in Spring. Charming anywhere, but loves best dry, sandy soil. 25c.

Pachysandra terminalis. A luxuriant creeper, the Japanese Spurge makes a bright green carpet all winter; white berries. A good undergrowth and edging for Rosebays, etc. 25c; \$200 per dozen.

Rosa Wichuraiana. The Memorial Rose is fine for spreading an evergreen cover, starred with clusters of fragrant single white flowers over any steep bank or unsightly object. Its slender stems climb high, too, when trained upward. Red berries follow the bloom. 1 year 10c. Small plants, 85c per dozen; \$8.00 per 100; 2-year plants, 20c each; \$1.50 per dozen; \$12.00 per 100.

Richmond, Va.

I have been very pleased with all the plants, etc., received from you through several years and wish you could see my gardens in which they are growing nicely.

GRACE S. ARENTS.

Troutdale, Oregon.

I want to thank you for sending such well-grown plants and of such good size. Not all nurserymen give us that kind of stuff.

CHAS, F. BARBER.

Falls Church, Va.

Plants arrived in excellent shape. I am especially pleased with
your careful packing of Evergreens and look forward to a larger
shipment next year.

W. W. DIEHL.

CLIMBING VINES

Bignonia Capreolata
(Evergreen).
Celastrus scandens. Bittersweet. (For bright berries).
English Ivy.
Euonymus radicans.
E.r. Vegetus. Large leaves.
(Evergreen Bittersweet).

Honeysuckles, Hall's and Scarlet Trumpet. Rosa setigera (Prairie Rose). Tecoma radicans. Virginia Creeper. Wild Grape.

(Evergreen Bittersweet). | Wistarias, White and Purple.

Descriptions of all these will be found in our booklet.
"American Plants." Price, except where noted, 25c each for good plants of medium size. In Wistarias, Bittersweet, Trumpet Honeysuckie we offer superb, heavy, 2 to 3 year clumps, at 50c each.

HARDY GARDEN FLOWERS

For descriptions consult "American Plants." Price, except where noted, 15c each; \$1.25 per dozen.

Bloodroot.
Bocconia.
Chrysanths, Hardy.
Columbines.
Cypripedium acaule. 25c.
Dicentra spectabilis. 40c.
Star Root.
Gladiolus, Mixed.
75c per dozen.
Hymenocallis. 35c.
Iris, German, Siberian and
Dwarf. 25c.
Jack-in-the-Pulpit. 25c.
Lilies. Day.

Lilies, Plantain. 25c.
Lilies-of-the-Valley.
Lobelia cardinalis.
Phlox, Tall. Six Best
Named Sorts. 20c.
Plume Poppy.
Primrose, English. 25c.
Sweet Rocket.
Tiarella, Foam Flower.
Violets, White, Blue and
Sweet.

Tritoma Pfitzeri. 25c. Yucca filamentosa. 20c.

We were very much pleased with your shipment of Evergreens and Azaleas. They came through all right and were fine specimens. The orchids all bloomed and the supposed-to-be-difficult arbutus is putting out new growth.

MRS. M. H. HARRINGTON.

Ridgeway, S. C.
The two Pyramidal Boxwood received from you two years ago are beauties.

MRS. W. H. RUFF.

University of Cincinnati.
The stock which I purchased of you through my landscape gardener was very satisfactory.

H. SCHNEIDER.

My two Boxwood and Stuartia arrived yesterday in splendid condition. I am delighted with them. They were crated most securely and look now as if they might always have grown by my front walk.

LUCILLE DUVAL.

Portland, Oregon.

My last order of Rhodos, and Kalmias when received, although packed light for the long journey, were as fresh as if they had just been taken from the ground.

MRS. J. F. BELL.

Glen Ellyn, Ill. Sincere thanks for the beautiful plants you have sent me and the many extras that came with my orders. I am more than pleased.
FRANK PETRICK.

Hot Springs, Va.

The 10 to 15-foot trees you baled and shipped by express came through promptly and are most satisfactory.

MRS. W. S. KENDALL.

Plants ordered of you last year are doing fine. The Boxwood were such nice shapely ones that I am ordering more.

MRS. A. OLDHAM.

Birmingham, Ala. Please let me thank you for good specimen plants that arrived in good condition.

A. E. KUNZE.

FLOWERING SHRUBS

Descriptions of these will be found in our booklet, "American Plants," sent on request, so long as it lasts, to all who wish it. Our stock of these shrubs is extra strong and branching, too large to be sent by mail in nearly all cases. Can go safely by freight if ordered early.

Price, except where noted, 1½ to 2 ft. 25c; 3 to 4 ft. 50c;

4 to 5 ft. 75c.

Azaleas, Evergreen, page 2. Azaleas, Carolina, page 6. Almond, Flowering Pink. 50c to 75c.

Butterfly Bush, Buddleia. Callicarpa, Beauty Fruit. Calycanthus, Carolina spice.

Clethra, Sweet Pepper. Corchorus (Kerria), Dbl. yel. *Exochorda, Pearl Bush. *Euonymus, Strawberry Tree.

*Forsythia Fortunei.

Hazelnut.

Ilex verticillata. 50c. *Mock Orange (Philadelphus).

Pyrus Japonica (Scarlet Quince).

Roses, Old-Fashioned Bush. Stephanandra, Lace Shrub. *Styrax Japonica.

Spireas, *Van H., Thunbergi, Billardi and Prunifolia.

Stuartia, American Camellia. \$1.00.

Snowberry.

Viburnum (Black Haw). Witchazel.

Xanthorrhiza.

*Sorts marked with a star we can supply only in the larger sizes.

STRICTLY BUSINESS

Nearly all the landscape materials offered are grown in our own gardens and all stock is freshly dug to fill each order. A certificate of inspection always accompanies it. We fill orders carefully, but in case of error will be held responsible only for original purchase price of plants. Claims for error must be made on receipt of plants. We gladly make good any mistakes on our part.

SHIPPING-Ordinarily we begin shipping in October and continue until December or later, as climatic conditions may Our altitude gives us a colder climate than most people imagine. Again about February 15th, we begin shipping and continue until May. Please give explicit shipping instructions. In their absence we usually ship by express, assuming, however, no responsibility beyond safe delivery to express companies.

PRICES are based on express or freight shipment, charges paid by customer. Ten per cent of amount of order should be added to cover parcels post charge on packages sent outside of the South Atlantic states and east of Mississippi River; 20 per cent if sent by mail west of it.

OUR RESPONSIBILITY ceases when stock is delivered to forwarding parties. We insure plants sent by mail if requested.

BOXING AND BURLAPING are free at prices quoted for large Evergreens. Do not order large trees or shrubs sent by mail, or one or two large ones sent with a number of small ones by express, unless the order is proportionately large. Where small Evergreens or deciduous stock is burlaped at special request we make a charge to cover cost.

TERMS: Cash. These prices cancel all others. We cannot handle orders amounting to less than one dollar.

Grantville, Kans.
The trees and shrubs arrived in fine condition—the best job of packing I have ever seen.

JAMES R. HAYNES.

North Liberty, Ind. It is always a pleasure to order from your nurseries because the stock comes so nice and fresh. I thank you very much for generous count and extras.

J. B. DREIBELBIS.

SEEDLING EVERGREENS

Small Plants at Small Prices

To grow one's own Evergreens from tiny plants is a game greatly enjoyed by many. We would rather distribute our surplus of lining-out stock among customers than among competitors. Therefore, while they last, we will sell good 6 to 10-inch plants, with roots carefully packed in moss, prepaid by mail to near zones only, the following:

Rhododendron Maximum, Kalmia Latifolia, American Holly, Catesby's Leucothoe, at 25c each, \$2.50 per 10.

American Hemlock. Tsuga Canadensis. Most graceful of all Evergreens and one of the easiest to grow. 15c each, \$1.25 per dozen.

If mixed collections, requiring more labels are desired, add 20c to the dozen price. No order for less than one dollar can be filled.

SMALL TREES AND SHRUBS

Flowering Trees. American Crab, White Dogwood, American Horsechestnut, Black Locust, Valley-Lily Tree, Shadbush, Silverbell, Tulip Tree, Red Maple, American Beech, Sassafras, Persimmon, 6 to 10 in., packed in moss, prepaid to near zones, only 15c each, \$1.25 per dozen.

Flowering Shrubs. Clethra alnifolia, Corchorus Japonica, Euonymus Americana (Strawberry Tree), Forsythia, Spireas prunifolia and Billardi, Black Haw, Witchazel, Xanthorrhiza. Same prices as Deciduous Trees.

COLLECTED EVERGREENS

At prices quoted the larger sizes of Evergreens are burlaped. All are carefully dug with balls of roots and well packed. Where small Evergreens or Deciduous stock is burlaped by special request charge is made to cover cost. For specially selected specimens, extra good, add 20 per cent to price. Early shipment of collected stock is always advisable. Five at the 10 rate. We collect only on our own property.

Rhododendron Maximum. American Rosebay.

	Per 10.
1 to 2 ft. clumps, average grade	
2 to 3 ft. clumps, average grade	10.00
Kalmia Latifolia. Mountain Laurel.	
	Per 10.
1 to 2 ft. clumps, average grade	\$ 5.00
2 to 3 ft. clumps, average grade	7.00

Address all orders to

Hardy Evergreen Gardens

MARION, NORTH CAROLINA
